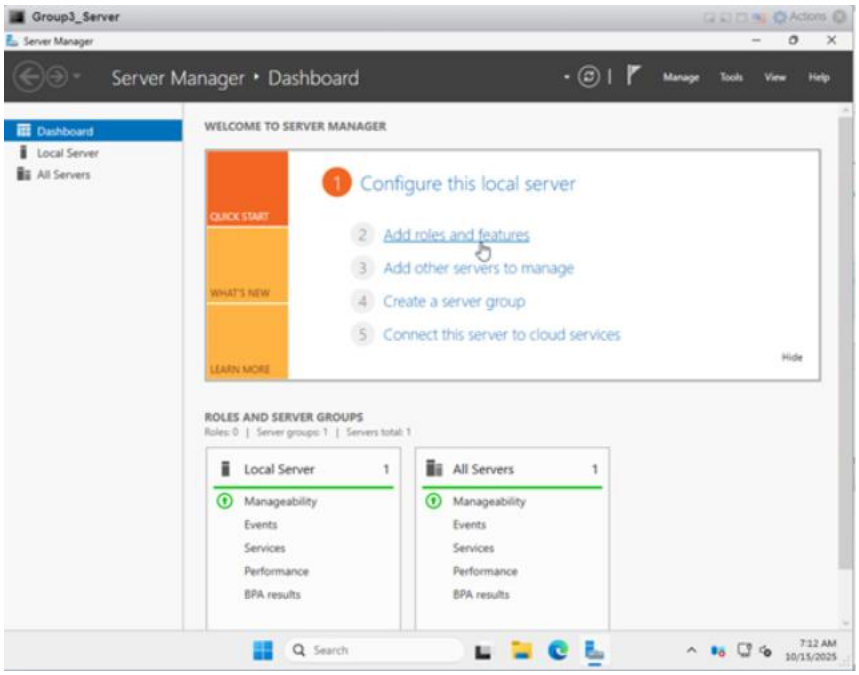
ISS Installation

1. Log into Windows 11 Server

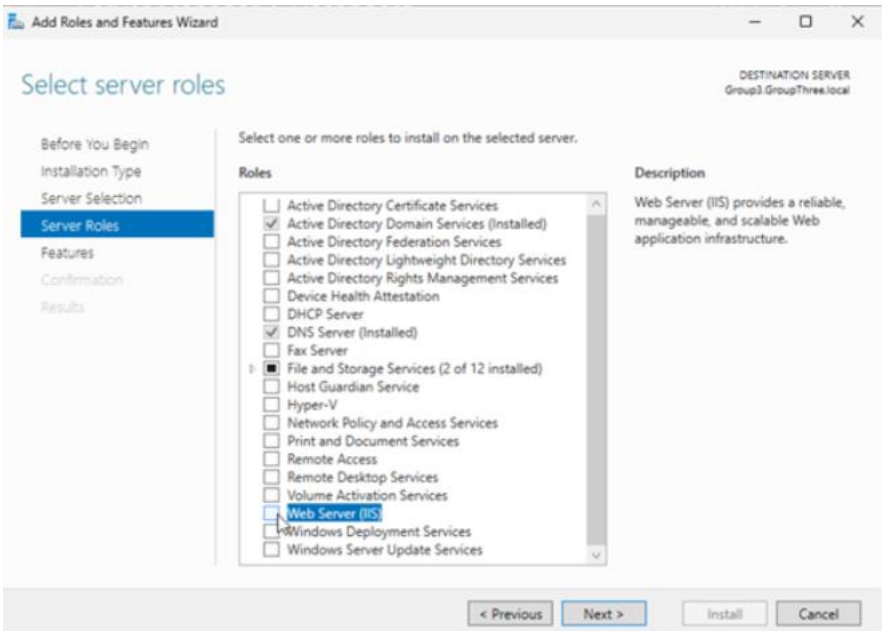
2. Open Server Manager and go to Dashboard

3. Click on the “add roles and features” button underneath the “Configure this local server” text

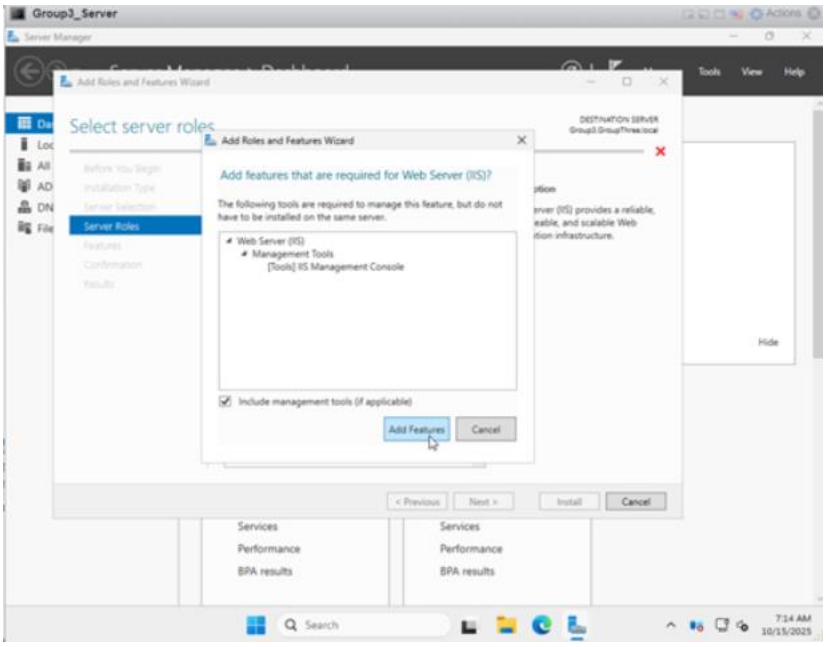


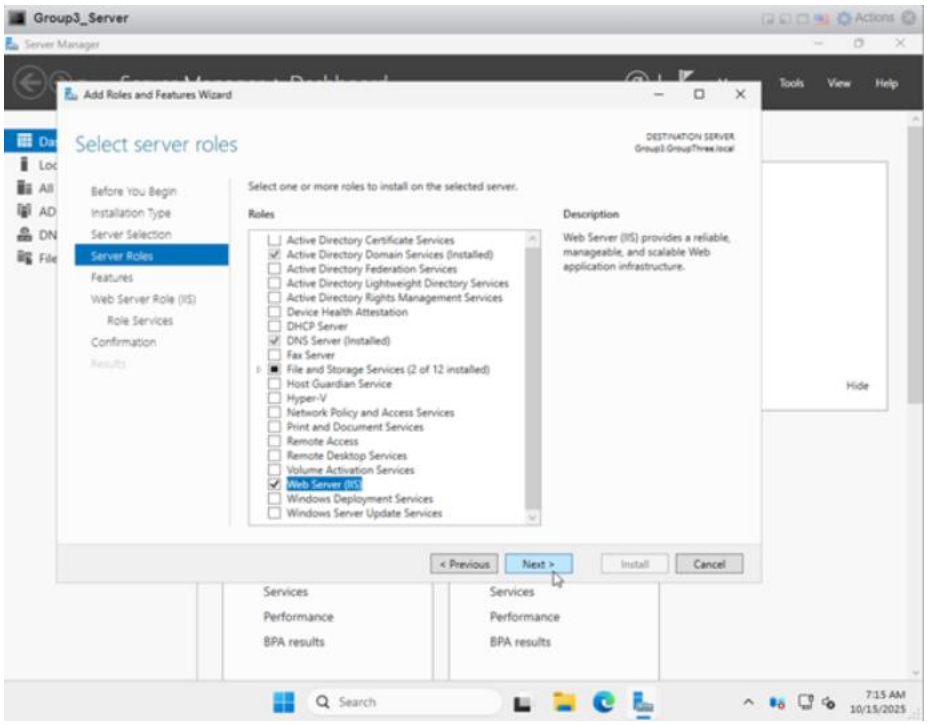
4. Click next until you reach the “Server Roles” section.

5. Click on the “Web Server (IIS)” box.



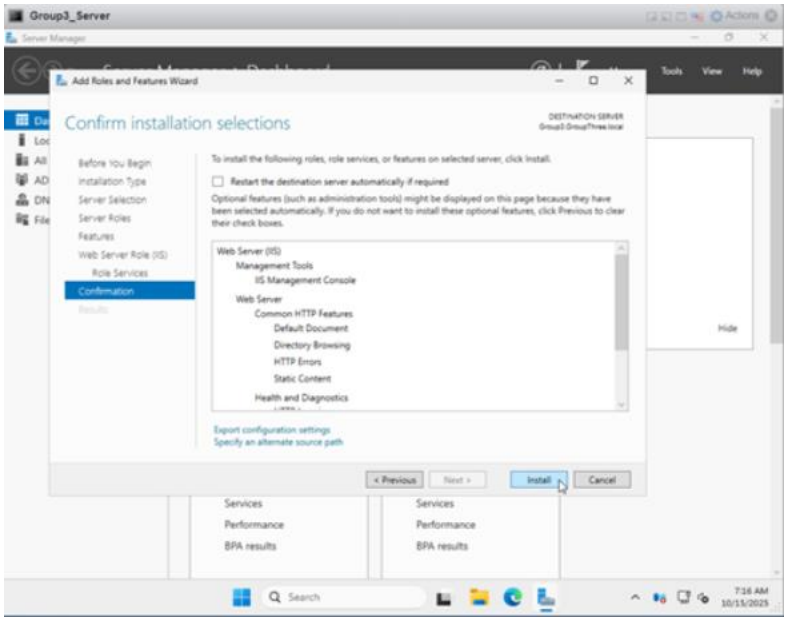
6. Clicking on the box opens a window. Click “Add Features”

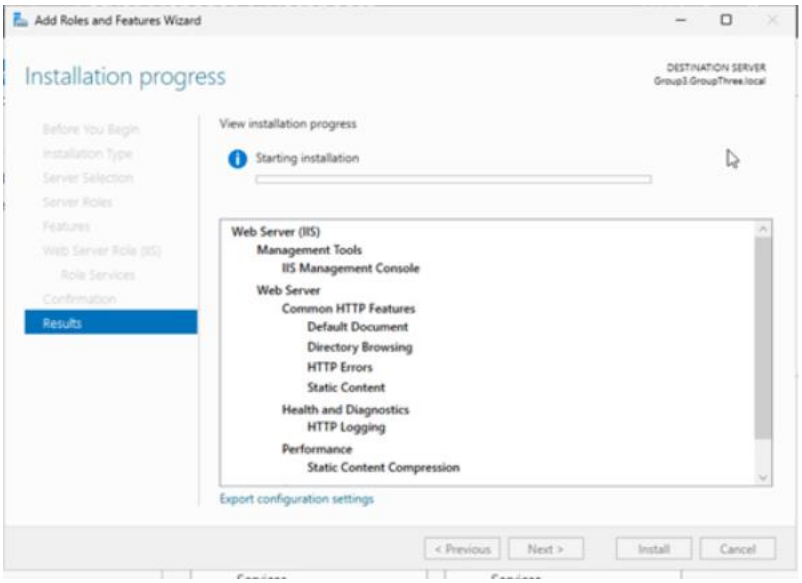




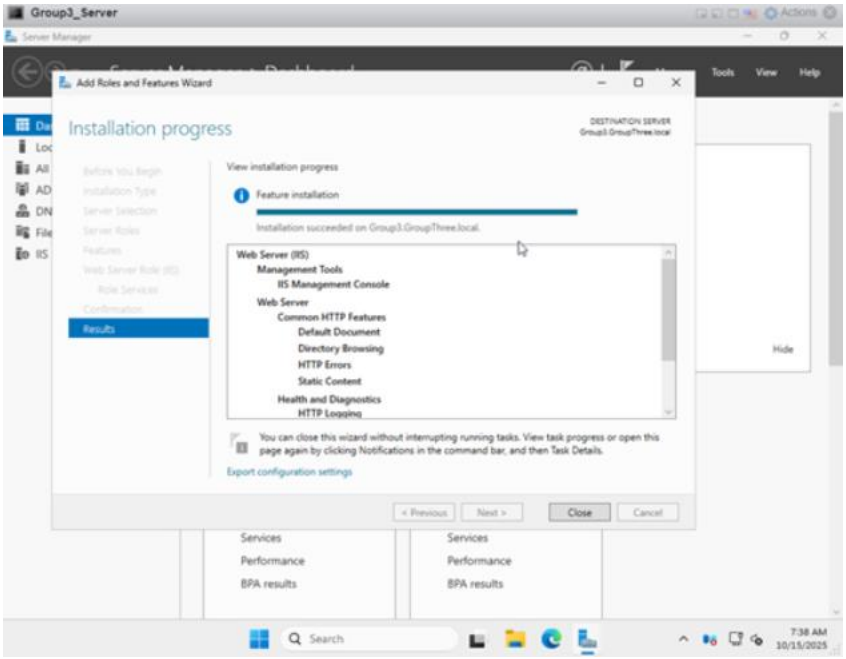
7. Click “Next” until you reach the install screen.

8. Click “Install”





9. Once the Installation is complete, click “close”



10. IIS is now in the dashboard
